DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
2.
 - I. Claims 1-2 and 12-17, drawn to a method for fastening a building board ,
classified in class 52, subclass 747.1.
 - II. Claims 3-6, drawn to a building board, classified in class 52, subclass 782.1+.
 - III. Claims 7-1 and 18-23, drawn to a fixture, classified in class 52, subclass 731.1+.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the invention of group III has separate utility such as it may be used as a brace member for wall studs. See MPEP § 806.0
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yvonne M. Horton whose telephone number is (703) 308-1909.
